

MAPLERIDGE SENIORS RECREATION & ACTIVITY CENTRE

Project Description:

This project entailed construction of a fully accessible two level community seniors recreation centre. The design incorporated indoor shuffle courts, multi-purpose rooms, craft room and library area and banquet facilities.

The project was partially funded by federal and provincial government programs and as such accurate scheduling was of particular importance due to funding deadlines. Kawartha Capital was able to meet all critical funding dates and successfully deliver this important community project on time and on budget.

Project Scope:

- ICF foundation
- Engineered wood floor and roof truss systems
- Wood frame construction
- Enhanced insulation levels to improve thermal efficiency
- In-floor radiant heating system in lower level and lobby areas
- LULA lift
- Fully accessible washrooms and entrances
- Commercial kitchen installation

Completion Date:

2011
